

No logical justification for extending age 60:

1. Thousands of airline pilots currently out of work, due to the events of 9-11.
2. No shortage of highly qualified airline pilots - present and future.
3. Pilots retiring at age 60 enjoy exceptional benefits and retirement packages.
4. Pilots demanding the increase are only motivated by greed (typical B-747 Capt. pay \$250,000 - 295,000 yr).
5. Cognitive skills strongly decline with age...does the public really want old pilots in the cockpit?
6. Stronger physical and mental skills may now be required to thwart other 9-11 attack.

OPPOSE THE CHANGE OF AGE 60
